City Kittie

<https://www.youtube.com/watch?v=sRQp1V0qx14>. The long-Tail boat with Tri-colour blessing clothes!!!. That enough to make me think Agent 47 work in Thailand. Have a lot of map's detail such as wai(\\u0e44\\u0e2b\\u0e27\\u0e49). Thai languages. TukTuk. coconut tree?.

[Big Map to discover the opportunity and the way to assassinate the target.](#)

[But I found some bug which it quite acceptable for me and hope SE will patch it soon.](#)

[PS. nice Wat \(Thai temple\) anyway.](#)

[PS. hope to have some local speak Thai language :D. 47 understand Thai??. I don't recommend getting this dlc. b/c when I try to play said dlc the game menu brings up the store page.. very very boring and childish. I love bridge building games and this wasnt worth 20 cents. I farmed my cards. made a profit. and left. ruined my life i cant stop clicking](#)

[. Awesome game!](#)

[A Balanced experience of blood, violence and a good sense of humor. Great game design, customisable character, cool bosses.](#)

[Alongside to great intense battles there is A lot of humor and refernces to other games/movies and TV shows that make this game unique and refreshing.](#)

[Highly recommended!](#)

great game (when it works) ruined by online only single player career.

start a championship in single player career. halfway through lose connection to racenet and loose all progress and have to start championship again. went to play it now and wont connect to racenet so cant play.. All i have to say for this game is: WOW. Gumboy junior offers everything that you would want in a game. Graphics, story and I have a serious emotional attachment to all of the characters. There is tons of replay value and enough choices to keep you entertained for hours. I sunk 128 hours into the story alone and another thing: IT HAS MULTIPLAYER! I thought this game could not get any better then it showed me its seamless matchmaking system to get into a competative game. It would be great with freinds but I lost all my freinds in the time I was playing this game. THIS IS A MUST BUY AND FOR 1.99 FOR 275 HOURS IS A GREAT DEAL.

I CAN'T STRESS THIS ENOUGH GEEEEEEEEEEET IT.. It's a short (2-3 hours) game, but well made. Nice graphics and animations, a funny story and the puzzles were never frustrating. The puzzles are definately on the easy side but part of that is because your inventory is never bloated with lots of unnecessary items and any time you find a puzzle clou it is displayed right next to the puzzle. Also there is no endless backtracking, just a handfull of screen to switch between. I also like the extras you get by finishing the game. You can look at concept art, download some wallpapers, listen to the in game music tracks and even choose from a handful of screensavers based on the games art. I had fun with this game and I hope Shaman games will create more games of similar quality.. Love driving alongside the mountains and with a range of fast and stopper services, you can't go wrong with this DLC. Optimisation could be improved but other than that it's a really nice route.. i finnishd this game in 15 minuts

. The most accessible WW2 wargame I've ever come across. Hardcore grognards may scoff at the "streamlined" nature of the affair, but for those of us just looking to move some tanks around and dip our toes in, this is a must-buy, particularly given the discount price.

I've played about eight rounds of the first scenario today, which is several more times than I've played most other wargames at all. Highly recommended!. It appears that Paradox is deleting my negative review of this game. Criticism is not allowed its seems. As so. I have decided to give the whole game and DLC a negatieve review. Still the greatest free to play fighter of the decade.

Sure it may be buggy and need's alot of work

But I have not seen a greater fighting game with such costumization as this.

And I still play it to this day...

I just get tired of Constantly disconnecting ever few hours or the game telling me I'm hacking and then closing.

Now this review may sound cheesy because I'm supporting the game,  
I really love fighting games but this game- it suffers and badly.

Most will tell you it's pay to win but it's not the case although it may sound true  
The only thing that makes it pay to win is the huge gap between Currency Scrolls and Carat scrolls  
Since some of the paid for scrolls will obviously be better then the ones you can get for ingame currency.

My point is the game still has a few kicking legs to stand on before it drops dead  
but although the community says those legs snapped when the company switched from OGP..

The game has plenty of content the problem is it is itching for a proper bugfix.

Ah the glory days when this game was still on OGP

**Rumble Fighter Veteran!**

**But please I'm being sincere when I say "NIMONIX" please fix your game.**
