www.gamersbook.com. **Featured Mod – Red Day: Episode One:**

Hey everyone! Check out this epic Serious Sam Fusion mod – **Red Day: Episode One**. It's a custom campaign mod telling a story about Sam's war against the Mental forces in Russia.

The highlight of this Serious Sam Fusion mod is a three-part, 50-minute long campaign set in a typical Russian provincial city Muhogradsk. The Red Day campaign is full of chaos and crazy arena-style action spanning over three custom levels, with cutscenes and everything you'd expect from a full-blown campaign. Oh, and there's a brand new soundtrack, as well so make sure you check it out on Steam and let us know what you think.

Massive thanks to the powerful **Dead_Kadath** for making this mod happen.
